A

Actuators
See-saw cam motion smoothly converts rotary to linear motion — R.C. Bell Jr. — Apr. 2 68

Adhesives
Cement that will bond almost everything (D) — Feb. 5 44

Aeronautics
"Aircraft propelling vehicle" (PD) — Jan. 8 75
Frangible metal tube system for dissipating energy of high-speed landing impact (D) — Feb. 5 43
Input device to aid research on cognitive systems (P) — Apr. 2 76
Peddling into air – British designs. Nicholas Landon — Mar. 19 127
Wind tunnel employs lift fan power plant (P) — June 25 90

Aluminum
Copper foil key to fusion pressure bonding process for aluminum (D) — Feb. 19 65
Corrosion resistance rated (D) — Apr. 2 39
Porous aluminum bearings for self-lubrication. Storchheim & Witt — Apr. 2 53
Simplified process for plating aluminum and its alloys with nickel and chromium (D) — Apr. 30 45

Appearance Design see Industrial Design

Appliances
Cordless drill – Design Award Winner — Apr. 16 95

Applied Mechanics
Allowances and tolerances for press fits. R.L. Peters (Y) — Jan. 8 85
Critical strut loadings. S.W. Kaye (Y) — May 14 165
Current and temperature rise determine the right conductor size. H.H. Manko — June 11 63
Flat-plate design factors and formulas. William Griffel — June 11 92
Maximum loads and deflections for springs. D.P. Costa (Y) — June 11 138
Moment distribution finds deflection of frames. Stern & Tehan — Feb. 19 87
New equations for designing nested-spring systems. H.P. Swieskowski — May 28 61
New formulas and charts help predict operating life of gears. C.A. Underwood — May 14 65
Pivoted thrust bearings – new charts simplify design. Sternlicht & Arwas — Apr. 16 124
Pulse pressure in a hydraulic system-formulas and curves. D.J. Lapera (Y) — Apr. 2 105
Shaft stability under combined loading. R.I. Isakower (Y) — Mar. 19 171
Stress analysis of sandwich panels in compression. Bertram Klein (Y) — Mar. 19 169
Temperature-rise in electronic equipment Robert D'Agostino (Y) — Feb. 5 95
Twin eccentric gears for a prescribed variable output. S.V. Miano — Jan. 8 47

Assembly
Allowances and tolerances for press fits. R.L. Peters — Jan. 8 85
8 electrical jobs for spring pins. A.J. Turner — Feb. 19 82
8 unusual jobs for spring pins. A.J. Turner — Feb. 5 56

Automotive
Automobile of the 1970's (D) — May 28 48
Avanti (P) — May 14 107
California approves devices to check auto blowby. Jeaness Keene — May 14 103
Engineered luxury makes safer car – the Avanti (PD) — June 25 84
Ground-effect machines – Soviet "do-it-yourself" models – "flying car" and "flying motorcycle" (D) — Feb. 5 42
1962 British auto (A) — Apr. 16 247
"Suckercraft", reverse twist on ground-effect system, pioneered (D) — Jan. 22 57
Truck, open-frame design with built-in lift speeds freight (PD) — Feb. 19 93

B

Batteries
Rechargeable flashlight batteries (D) — May 14 64

Bearings
Air bearings for machine tools? (A) — May 14 181
Air bearings pace British design conference. John Tunstall — Jan. 22 88
Ball-bearing screw life predicted accurately by new charts. D.A. Gaionaks — Feb. 5 49
Fluid rollers support metal strip for forming cans from paper-thin tinplate (PD) — Feb. 19 94
Gas bearings in prototypes (A) — Feb. 19 177
Lubricated rubber sleeve bearings for rotary shafts (D) — May 14 62
New data on bearings (D) — June 25 61
Pivoted thrust bearings – new charts simplify design. Sternlicht & Arwas — Apr. 16 124
Porous aluminum bearings for self-lubrication. Storchheim & Witt — Apr. 2 53

Belt Drives and Conveyors
Conveyor belt tilts to dump (PD) — Apr. 30 66
V-belt or flat belt? (A) — Jan. 22 123
V-belt uses glass cord (P) — Mar. 19 131

Bonding
Better way to bond graphite parts (D) — May 28 48
Copper foil key to fusion pressure bonding process for aluminum (D) — Feb. 19 65

Book Reviews
Advances in electronic circuit packaging. G.A. Walker, ed — June 25 138
Alloying elements in steel. Bain & Paxton — May 28 114
American electricians' handbook. Terrell Croft — Apr. 2 103
Applied optics — Apr. 30 94
Automatic control systems. B.C. Kuo — June 25 137
Basic electricity, volume I. C.H. McClain — Feb. 19 169
Basic graphics. W.J. Luzadder — June 11 159
Computer control systems technology. C.T. Leondes — Mar. 19 179
Corrosion science — Jan. 8 114
Design data for aeronautics and astronautics. Morrison & Ingle — May 28 114
Design of hydraulic control systems. Lewis & Stern — June 25 138
Design of machine elements. M.F. Spotts — Jan. 22 118
Developments in mechanics. Lay & Malvern — May 14 170
Electric machinery. Fitzgerald & Kingsley Jr. — Apr. 30 94
Electrical engineering fundamentals. R.B. Angus Jr. — Apr. 30 94
Electromechanical components for servomechanisms. Davis & Ledgerwood — Mar. 5 100
Electronic equipment design and construction. G.W.A. Dummer & others — Apr. 2 103
Elementary fluid mechanics. J.K. Vennard — Jan. 22 116
Elementary kinematics of mechanisms. J.R. Zimmerman — June 11 156
Engineering fundamentals for professional engineers' examinations. L.M. Polentz — Mar. 19 182
Engineering thermodynamics. Hall & Ibele — Feb. 5 109
Factors in evaluating fatigue life of structural parts — Jan. 8 114
Flexural vibrations of rotating shafts. F.M. Dimentberg — Mar. 19 181
Fluid mechanics. R.H.F. Pao — Apr. 16 231
Glass reinforced plastics. Philip Morgan — May 28 114
Gyroscope, theory and design. P.H. Savet — May 14 170
Handbook of astronautical engineering. H.H. Koelle — Apr. 16 233
Handbook of automation, computation and control, Grabbe, Ramo & Wooldridge — Mar. 19 179
Handbook of mechanical wear. Lipson & Colwell — Jan. 8 114
Handbook of welded steel tubing. Welded Steel Tube Institute — Feb. 5 109
Heat mass and momentum transfer. Roshenow & Choi — Apr. 16 239
Industrial control electronics. Matthew Mandl — Mar. 5 100
An inexpensive science library. Deason & Lynn — May 14 174
Instrument ball bearings. P.J. Geary — Mar. 5 100
The international journal of production research — Apr. 30 94
An introduction of the elements of mathematics. J.N. Fujii — Mar. 19 183
Introduction to electric circuits. H.W. Jackson — June 11 154
Introduction to feedback systems. L.D. Harris — Apr. 16 239
Introduction to partial differential equations. Donald Greenspan — Mar. 5 100
Introduction to space dynamics. W.T. Thomson — May 14 170
Iterative arrays of logical circuits. F.C. Hennie, III — Apr. 2 103
Kinematics and design of mechanisms. Alexander Cowie — Mar. 19 179
Linear algebra and group theory. V.O. Smirov — Mar. 19 181
Linear programming. G. Hadley — Mar. 19 182
Machine tool design and research — May 14 170
Magnetic amplifier analysis. D.L. Lafuze — June 25 137
Magnetic control of industrial motors, Pt III. G.W. Heumann — Mar. 19 185
The major achievements of science. A.E.E. McKenzie — Apr. 16 231

Mathematical machines. F.J. Murray — Mar. 19 181
Mathematical models. Cundy & Rollett — May 14 176
Mathematical programming. S. Vajda — Mar. 19 185
Mechanical engineering for professional engineers' examinations. J.D. Constance — Apr. 16 231
Mechanical properties of engineering ceramics. Kriegel & Palmour,III — June 25 137
Metal stamping design. R.F. Carlson — June 25 137
Metallic fatigue. W.J. Harris — Mar. 19 183
Miniaturization. H.D. Gilbert — Feb. 5 109
Nonlinear oscillations. Nicholas Minorsky — June 11 156
Numerical methods in engineering. Salvadori & Baron — May 14 177
Operational electricity. C.I. Hubert — Jan. 22 116
The origins of scientific thought. Giorgio De Santillana — Apr. 16 231
Physical and mechanical properties of commercial molybdenum-base alloys. J.A. Houck — Feb. 19 169
Pipe friction manual. Hydraulic Institute — Mar. 5 100
Planning a computer system. Werner Buchholz — June 11 156
Plasticity and creep of metals. Lubalm & Felgar — Apr. 30 94
Principles of linear networks. Friedland, Wing & Ash — Feb. 19 169
Progress in very high pressure research. Hibbard & Strong — Jan. 8 114
Properties of solids. G.G. Koerber — June 11 154
Racing and sports car chassis design. Costin & Phipps — May 14 177
Radiation effects upon and the recovery of the mechanical properties of metals. Aqua & Allio — Jan. 22 116
Refractory metals and alloys. Semchyshen & Harwood — Mar. 19 179
The rule of folly. J.R. Newman — June 11 152
Science awakening. B.L. Van Der Waerden — Apr. 16 231
Science since Babylon. Derek J. De Solla Price — June 25 137
Shock and vibration handbook library. Harris & Crede — May 14 170
Simplified mechanics and strength of materials. Harry Parker — Apr. 16 233
Spring design – a practical treatment. W.R. Berry — Jan. 22 116
Static relays for electronic circuits. R.F. Blake — Jan. 22 116
Strength of materials. F.L. Singer — June 11 154
A survey of high pressure effects of solids. Devries, Baker & Gibbs — June 25 138
Survey of human dynamics data and a sample application. J.W. Senders — Jan. 22 116
Survey of materials for high-temperature – bearings and sliding applications. M.F. Amateau & others — May 14 176
Synthesis of optimum control systems. S.S.L. Chang — Feb. 19 169
Systems: research and design. D.P. Eckman — Mar. 19 179
The technical illustrator. Hubert Cook — Mar. 5 100
Techniques of value analysis and engineering. L.D. Miles — Apr. 16 237
Technological planning at the corporate level. J.R. Bright — Apr. 16 237
Temperature measurement in engineering, volume II. Baker, Ryder & Baker — Jan 8 114
Theory of elasticity. V.V. Novoshilov — Feb. 19 169
Theory of energy and mass transfer. Lykov & Mikhaylov — Apr. 2 103
Understanding digital computers. Paul Siegel — Mar. 19 183
Vector mechanics for engineers. H.R. Nara — May 14 74
Water hammer in hydraulics and wave surges in electricity. Louis Bergeron — Jan. 8 114
You can survive the bomb. Lawrence & Kimball — June 11 152

C

Cams
Cams in control systems (A) — Jan. 8 117
Camshaft in head cuts parts and weight (PD) — May 14 100
See-saw cam motion smoothly converts rotary to linear motion. R.C. Ball. Jr. — Apr. 2 68
10 ways to amplify mechanical movements. Federico Strasser — Apr. 2 56

Castings
British design conference, John Tunstall — Jan. 22 88
Design strength of gray iron under impact. E.D. Veilleux — Apr. 16 118
Investment-cast parts for lower costs. F.H. Meeder — Feb. 5 58
Welding malleable iron castings to steel. H.B. Cary — May 28 71

Ceramics
Ceramic fibers that stand 1500 F (D) — Mar. 19 84
Electron beam techniques for welding (D) — June 11 53
Selection and fabrication of tough-to-shape ceramics. J.A. Staricenka (Y) — Mar. 5 111
Ultrasonics as aid for ceramic powders (D) — June 11 53

Chain Drives
How to select the most economical roller-chain drive. W.F. Hofmeister — Mar. 5 52

Computers
Automated car park uses digital computer (A) — Mar. 19 189
Computer-calculated curves predict solenoid performance. Smith & Papaiconomou — Jan. 22 59
Data accumulation system – Design Award winner — Apr. 16 98
EDGE (Electronic Data Gathering Equipment) will report work progress at. Lockheed (P) — Jan. 22 87
Low-cost memory and switching element for computers (D) — June 11 54
Miniature pneumatic computer (D) — Mar. 5 40

Control Systems
Balanced beam controls pressure (PD) — Apr. 30 67
Binary logic. W.S. Bennett
First lesson — Jan. 8 79
Second lesson — Mar. 5 43
Third lesson — Apr. 30 53
Cams in control systems (A) — Jan. 8 117
Mechanical mole, remotely controlled (PD) — May 28 68
Servos for rapid power control (A) — Apr. 16 249
Tape control for pneumatic circuits (D) — June 25 60

Copper
Manganese-copper damping alloys (D) — Mar. 5 41

Corrosion
Antifreeze corrosiveness tested (D) — Feb. 19 67
Chrome stainless corrosion resistance can be increased by molybdenum addition (D) — Apr. 2 39
Corrosion-resistant fastener news (Y) — Apr. 16 262
Metal corrosion resistance in industrial atmospheres rated (D) — Apr. 2 39
Protecting refractory metals with diffusion coatings. P. King — June 25 63
Technetium – powerful new corrosion-inhibitor (D) — Jan. 8 46

Couplings
Flexible, all-metal coupling requires no lubrication (D) — June 11 51
Instrument couplings – report. R.W. Carson — Apr. 2 41

Cryogenics
Best insulation for low-temperature (D) — Apr. 30 44
Cryogenic magnets going commercial (D) — Mar. 5 39
Demonstration kit (D) — Feb. 19 68

Cylinders
Cable replaces piston rod (PD) — Mar. 19 107
Cold-working high-strength cylinders (A) — Mar. 19 189
Efficient way to pack cylinders. Sidney Kravitz (Y) — Apr. 30 80
Stress in undercut cylinders. D.J. Lapera (Y) — Apr. 16 261

D

Design
Air Force studies seat design...body support/restraint. C.A. Dempsey — Apr. 16 106
Anchor design – explosive sheeting for pressure-relief devices bring first major design change (D) — June 11 52
Balanced beam controls pressure (PD) — Apr. 30 67
Barbarian's barbarian (Ed) — Apr. 2 11
Binary logic. W.S. Bennett
First lesson — Jan. 8 79
Second lesson — Mar. 5 43
Third lesson — Apr. 30 53
British hold second Engineering Materials and Design Exhibition and Conference. John Tunstall — Jan. 22 88
British project spurs design of radical machine drives. John Tunstall — Apr. 30 76
Cable drives design hints. F.W. Wood, Jr. — Jan. 22 76
Case Institute specializes in designs to aid MD's. Violet Forsha — Mar. 5 64
Citrus fruit harvesting approach employs wind machine principle (D) — Jan. 22 57
Computer-calculated curves predict solenoid performance. Smith & Papaiconomou — Jan. 22 59
Construction of carbon brushes (A) — May 28 114
Correspondence file: new product department case 76, 421. N.W. Eft — Mar. 5 66
Data stored on 256-card deck (CRAM) (PD) — Jan. 22 67
Diesel extractor pulls piling swiftly (PD) — Feb. 5 64
Engineering elastomers – report. P.J. Larsen — Jan. 8 54
Fast-reversing drive. J. Boehm & others — Jan. 22 78
Flat-plate design. William Griffel — June 11 92
Flat spring materials – report. R.W. Carson — June 11 68
Fluid-system reservoir design. Louis Dodge — Apr. 16 120
Forged parts – rules for designing. Charles Gure — Apr. 30 47
Gas permeability tests (D) — May 28 47
Graphite – beat the heat with pyrolytic graphite. A.R. Gardner — Jan. 22 72
Gray iron under impact – design strength E.D. Veilleux — Apr. 16 118
High-impact molded parts – how to design. R.W. Bice — May 14 94
High-vacuum processes and equipment. A.R. Gardner — June 11 82
"Hoist with his own petard..." (Ed) — Apr. 16 11
How to design for heat treating. Federico Strasser — Apr. 30 62
More design hints — May 14 84
How to make fastenings fit the design — June 25 60
How to select a fluid pressure switch. J.O. Brown — May 14 86
Hydraulic deceleration (A) — Jan. 8 119
Instrument couplings – report. R.W. Carson — Apr. 2 41
Investment-cast parts for lower costs. F.H. Meeder — Feb. 5 58
Latch-designs – 6 more low-cost latches for top performance. L. Kasper — Jan. 8 52
Lubrication and wear – new theories and design data. Nicholas Chironis — June 25 76
Marine jet propulsion. W.B. Wallace — June 11 100
Mechanical mole guided by nucleonics (PD) — May 28 68
Message transmission – facsimile process and optical scanning system (D). — May 28 45
Multiple connectors – report. Redslob & Rider — May 28 49
Nested-spring systems – new equations for designing. H.P. Swieskowski — May 28 61
Paperboard models – see design problems in 3-D. C.W. Gilson — Mar. 19 103
Pivoted thrust bearings – new charts simplify design. Sternlicht & Arwas — Apr. 16 124
Plastic deformation design calculations. W.E. Brown — Mar. 5 58
Protecting refractory metals with diffusion coatings. P. King — June 25 63
Rail vehicle noise reduction research (D) — May 14 64
Roller-chain drive – how to select the most economical. W.F. Hofmeister — Mar. 5 52
See-saw cam motion smoothly converts rotary to linear motion. R.C. Ball. Jr. — Apr. 2 68
Simple math estimates oil-system cooling. Louis Dodge — June 25 92
Strain gages. N.A. Crites
Your guide to today's strain gages — Feb. 19 69
Today's strain gages – equipment and application — Mar. 19 85
Submarines – attacking the problems of commercial submarines — Jan. 8 76
10 ways to amplify mechanical movements. Federico Strasser — Apr. 2 56
Third Annual Master Design Awards — Apr. 16 87
Timers – How to choose a timer – report. Proctor & Hall — Feb. 19 96
Tubing – dimensions and tolerances for specifying small tubing. H.W. Poole — Feb. 19 84
Variable-speed dc drives selection guide. Baruch Berman — Apr. 2 58
The warts on the pickle (Ed) — Mar. 5 11
Weld fasteners design guide. J.M. Oswald — June 11 55
Wildhaber-Novikov gearing progress report — June 25 88

Design Engineering Show and Conference
A preview — Apr. 16 133
ASME conference program — Apr. 16 133
Show floor plan — Apr. 16 136
Who will be there, listed by exhibitor and product — Apr. 16 136
New product items at the show — Apr. 16 145
New literature available at the show — Apr. 16 153
Complexity of engineering stressed — May 28 82
Products exhibited — May 28 84

Drafting
Measuring drafting efficiency (A) — Feb. 19 175
Tape-controlled drafting machine (P) — Apr. 16 122

Drawing and Forming
Controlled impact forges metals at high speeds (PD) — Mar. 5 68
Correcting for springback (A) — Mar. 19 191
Defects in drawn parts (A) — Apr. 16 247
Explosive forming (A) — Feb. 19 177
Fluid rollers support metal strip for forming cans from paper-thin tinplate (PD) — Feb. 19 94
Scope of electroforming (A) — June 11 161

E

Economics
VITA – foreign aid experiment attracts volunteer engineers. Dora Merris — Feb. 19 114

Editorials
Barbarian's barbarian — Apr. 2 11
